

Aravinth Baskaran

Front-End Developer

Results-driven Front-End Developer with 4 years of experience in building responsive and high-performance web applications using ReactJS, Redux, and Redux Toolkit. Strong in translating business requirements into intuitive UI components, optimizing application performance, and ensuring cross-browser and cross-device compatibility. Experienced in collaborating with cross-functional teams, improving code quality, and delivering scalable, maintainable front-end solutions.

WORK EXPERIENCE

Senior Software Engineer / ReactJS Developer Datayaan Solutions Private Limited

04/2022 - Present

Tambaram, Chennai.

Achievements/Tasks

- Developed responsive and high-performance web applications using ReactJS, TypeScript, JavaScript, HTML, CSS, SASS, and Material UI.
- Implemented **REST API integrations** and managed complex state with **Redux & Redux Toolkit** for scalable and reliable front-end architecture.
- Built **scalable and reusable components** using ReactJS and Redux Toolkit to improve development efficiency and maintainability.
- Improved **UI/UX and data visualization** for dashboards and real-time tracking/monitoring applications.
- Managed version control and deployments using **AWS CodeCommit**, **Git**, and **AWS Amplify** within CI/CD workflows.
- Led and mentored front-end team members**, ensuring clean code practices, effective collaboration, and on-time delivery of project milestones.

PROJECTS

Vehicle Tracking & Asset Management System (04/2022 - Present)

- Built a real-time GPS tracking solution with live maps, geofencing alerts, and asset health monitoring. Developed a responsive, multi-device dashboard using ReactJS and TypeScript to enhance operational visibility and efficiency.

Logistics Management System (05/2023 - 12/2023)

- Built a shipment tracking module with real-time delivery updates and route optimization. Improved supply-chain visibility through analytics dashboards and implemented secure role-based access control.

Pollution Monitoring & Environmental Compliance System (01/2024 - 07/2024)

- Implemented IoT sensor integration for monitoring air and water quality with real-time dashboards and automated threshold alerts. Added historical trend analysis and compliance reporting to support environmental planning.

Waste Management Automation System (08/2024 - 02/2025)

- Built an automated waste collection routing and scheduling system with mobile notifications and team coordination features. Developed analytics dashboards for waste volume tracking, sustainability insights, and regulatory compliance.

EDUCATION

B.E in Mechanical Engineering - Anna University (Alagappa Chettiar Government College of Engineering and Technology)

Diploma in Mechanical Engineering (Muthayammal Polytechnic College)

SKILLS

HTML5

CSS3

SASS

JavaScript

TypeScript

Material UI

ReactJS

Redux

Redux Toolkit

AWS

REST APIs

Web API

GIT

ACHIEVEMENTS

API Integration & Real-Time Apps

Delivered seamless API integrations and real-time features like live tracking, geofencing, and instant alerts.

Data Visualization & Scalable UI

Built interactive dashboards and implemented scalable, maintainable front-end architecture with ReactJS and Redux Toolkit.

Code Quality & Project Delivery

Improved code quality through reviews and best practices, contributing to successful delivery of high-impact applications.

Team Leadership

Led front-end tasks, guided team members, and ensured timely delivery with adherence to coding standards.

CERTIFICATES

React JS (04/2022 - 05/2022)

JavaScript (04/2022 - 05/2022)

ORGANIZATIONS

Datayaan Solutions Private Limited, Chennai.
(04/2022 - Present)

Senior Software Engineer - Full-time
